

Attachment D

Proposed Water Quality Protected Waterways

LEGEND

- **Blue** = Proposed Water Quality Protected Waterways. These waterways were part of the original proposal because they met certain protection criteria. They are still recommended for protection because they are not already protected by existing regulations.
- **Yellow** = Waterways that were part of the original water quality waterways proposal but are no longer recommended for protection by this proposal due to existing policy commitments within the West Eugene Wetlands Plan Boundary.
- **Green** = Waterways that were part of the original water quality waterways proposal but are no longer proposed for protection because they are already protected by other city regulations.
